

What is a Bond Authorization?

Before issuing bonds, a Municipal Utility District (MUD) must get authorization from the voters within the District via a Bond Election. A **bond authorization** is the process of **approving to sell bonds to fund District projects**. Similar to a line of credit that a business might use to fund its projects.

An authorization is not immediate funding, nor is it a "blank check" to fund the entire amount of the authorization without meeting strict regulatory requirements.

While the sum of a bond authorization may be larger, bonds may only be sold once necessary projects are ready to begin or as needed for facility replacement.

STEP 1: AUTHORIZE

BOND AUTHORIZATION = The legal permission from the voters to borrow from a "credit line" over time, up to the limit set by an election.

STEP 2: ISSUE

BOND ISSUANCE = A portion of authorized funds are "borrowed" by the District as needed to fund specific projects which are approved by the State.

NOTE:** Voter approval grants the District the option, but not the obligation, to issue tax-supported bonds. **No additional taxes are levied from authorization alone.

In the upcoming May 2025 Bond Election, residents will be asked to **vote on the authorization** of bonds to fund necessary infrastructure repairs.
