Independent Auditors' Report

To the Board of Directors of
The Meadows at Chandler Creek Municipal Utility District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of The Meadows at Chandler Creek Municipal Utility District (the "District"), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Affiliated Company

ML&R WEALTH MANAGEMENT LLC

"A Registered Investment Advisor"

This firm is not a CPA firm

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2020, and the respective changes in financial position, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 9 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental information required by the Texas Commission on Environmental Quality (the "TCEQ") and other supplemental information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information required by the TCEQ listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information required by the TCEQ listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other supplemental information listed in the table of contents has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

The Meadows at Chandler Creek Municipal Utility District

Management's Discussion and Analysis For the Year Ended September 30, 2020

In accordance with Governmental Accounting Standards Board ("GASB") Statement No. 34, the management of The Meadows at Chandler Creek Municipal Utility District (the "District") offers the following narrative on the financial performance of the District for the year ended September 30, 2020. Please read it in connection with the District's financial statements that follow.

For purposes of GASB Statement No. 34, the District is considered a special purpose government. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the "Total Governmental Funds" column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the Statement of Net Position and the Statement of Activities.

Overview of the Basic Financial Statements

The District's reporting is comprised of two parts:

- *Management's Discussion and Analysis* (this section)
- *Basic Financial Statements*
 - *Statement of Net Position and Governmental Funds Balance Sheet*
 - *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances*
 - *Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund*
 - *Notes to Basic Financial Statements*

Other supplementary information is also included.

The *Statement of Net Position and Governmental Funds Balance Sheet* includes a column (titled "Total Governmental Funds") that represents a balance sheet prepared using the modified accrual basis of accounting. The adjustments column converts those balances to a balance sheet that more closely reflects a private-sector business. Over time, increases or decreases in the District's net position will indicate financial health.

The *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances* includes a column (titled "Total Governmental Funds") that derives the change in fund balances resulting from current year revenues, expenditures, and other financing sources or uses. These amounts are prepared using the modified accrual basis of accounting. The adjustments column converts those activities to full accrual, a basis that more closely represents the income statement of a private-sector business.

The *Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund* presents a comparison statement between the District's adopted budget to its actual results.

The *Notes to Basic Financial Statements* provide additional information that is essential to a full understanding of the information presented in the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances*.

Schedules required by the Texas Commission on Environmental Quality and other supplemental information are presented immediately following the *Notes to Basic Financial Statements*.

Comparative Financial Statements

Statement of Net Position

	Governmental Activities		
	2020	2019	% Change
Current assets	\$ 1,633,814	\$ 1,702,839	(4%)
Capital assets	9,115,168	8,810,576	3%
Total assets	<u>\$ 10,748,982</u>	<u>\$ 10,513,415</u>	<u>2%</u>
Current liabilities	\$ 723,605	\$ 652,435	11%
Long-term liabilities	1,280,000	1,885,000	(32%)
Total liabilities	<u>\$ 2,003,605</u>	<u>\$ 2,537,435</u>	<u>(21%)</u>
Net investment in capital assets	\$ 7,230,168	\$ 6,335,576	14%
Restricted	331,884	379,794	(13%)
Unrestricted	1,183,325	1,260,610	(6%)
Total net position	<u>\$ 8,745,377</u>	<u>\$ 7,975,980</u>	<u>10%</u>

The District's total assets were approximately \$10.7 million as of September 30, 2020. Of this amount, approximately \$9.1 million is included in capital assets. The District had outstanding liabilities of approximately \$2.0 million which comprised primarily of general obligation bonds.

Statement of Activities

	Governmental Activities		
	2020	2019	% Change
Water and wastewater service	\$ 1,406,590	\$ 1,315,159	7%
Property taxes, including penalties and interest	1,434,271	1,394,822	3%
Contributions	398,560	-	100%
Other	19,646	47,436	(59%)
Total revenues	<u>3,259,067</u>	<u>2,757,417</u>	<u>18%</u>
Services	1,406,590	1,315,159	7%
Other	654,582	651,212	1%
Debt service costs	56,151	71,963	(22%)
Depreciation	372,347	372,332	<1%
Total expenses	<u>2,489,670</u>	<u>2,410,666</u>	<u>3%</u>
Change in net position	769,397	346,751	122%
Beginning net position	7,975,980	7,629,229	5%
Ending net position	<u>\$ 8,745,377</u>	<u>\$ 7,975,980</u>	<u>10%</u>

Revenues were approximately \$3.3 million for the fiscal year ended September 30, 2020, which is an 18% increase from the prior year. This increase was mainly related to contributed capital assets of approximately \$399,000 for the fiscal year ended September 30, 2020. Property taxes provided approximately \$1.4 million and water and wastewater service provided approximately \$1.4 million. Expenses increased in total by approximately \$79,000 to approximately \$2.5 million for the fiscal year ended September 30, 2020, of which approximately \$1.4 million was related to water and wastewater services and approximately \$372,000 was related to depreciation expense. Net position for the fiscal year ended September 30, 2020 increased approximately \$769,000 compared to the prior year net position increase of approximately \$347,000.

Sources of Revenue

Analysis of Governmental Funds

	2020	2019
Cash	\$ 21,728	\$ 22,533
Temporary investments	1,563,590	1,654,974
Receivables	37,671	14,689
Prepaid items	10,825	10,643
Interfund receivable	789	180
Total assets	\$ 1,634,603	\$ 1,703,019
Accounts payable	\$ 100,517	\$ 39,440
Refundable deposits	9,578	11,825
Interfund payable	789	180
Total liabilities	110,884	51,445
Deferred inflows of resources - property tax revenue	4,611	2,902
Nonspendable fund balance	10,825	10,643
Restricted fund balance	338,476	389,711
Assigned fund balance	99,804	137,761
Unassigned fund balance	1,070,003	1,110,557
Total fund balances	1,519,108	1,648,672
Total liabilities, deferred inflows of resources, and fund balances	\$ 1,634,603	\$ 1,703,019

The *General Fund* pays for daily operating expenditures. When comparing actual figures to the budget, actual revenues were higher than budget by approximately \$97,000 mostly due to higher water and wastewater service revenue than expected. Actual expenditures were lower than final budget by approximately \$38,000 mostly due to lower than expected other expenditures. More detailed information about the District's budgetary comparison is presented in the *Basic Financial Statements*.

The *Debt Service Fund* remitted bond principal of \$590,000 and interest of \$56,151. More detailed information about the District's debt is presented in the *Notes to Basic Financial Statements*.

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a pandemic, which continues to spread throughout the United States. While the disruption is expected to be temporary, there is uncertainty around the duration. Due to the nature of the District's services, the pandemic may negatively impact the District's business, results of operations, and financial position; however, the related financial impact cannot be reasonably estimated at this time.

Capital Assets

	2020	2019
Land	\$ 411,060	\$ 12,500
Construction in progress	363,869	101,075
Water and wastewater facilities	12,807,082	12,807,082
Park improvements	1,798,888	1,783,303
Other capital assets	355,430	355,430
Subtotal	15,736,329	15,059,390
Accumulated depreciation	(6,621,161)	(6,248,814)
Total	<u>\$ 9,115,168</u>	<u>\$ 8,810,576</u>

More detailed information about the District's capital assets is presented in the *Notes to Basic Financial Statements*.

Long-Term Debt Activity

	2020	2019
Series 2005 Bonds	\$ 280,000	\$ 375,000
Series 2012 Bonds	1,605,000	2,100,000
Total	<u>\$ 1,885,000</u>	<u>\$ 2,475,000</u>

At September 30, 2020, unlimited tax bonds of \$1,835,000 were authorized by the District, but unissued. More detailed information about the District's long-term debt is presented in the *Notes to Basic Financial Statements*.

Currently Known Facts, Decisions, or Conditions

For fiscal year 2021, which is the tax year 2020, the tax rate remained at \$0.21 per \$100 of assessed valuation for maintenance and operating expenditures and the tax rate remained at \$0.15 per \$100 of assessed valuation for payment of principal and interest associated with outstanding bonds. The adopted budget for 2021 projects an approximate \$100,000 decrease in fund balance of the General Fund. When compared to the 2020 budget, revenues are expected to increase by 3%, and expenditures are expected to increase by approximately 1%.

Requests for Information

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability for the funds it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District c/o McGinnis Lochridge, 600 Congress Ave, Ste 2100, Austin, Texas 78701-3798.

Notes to Basic Financial Statements Year Ended September 30, 2020

1. Summary of Significant Accounting Policies

The Meadows at Chandler Creek Municipal Utility District (the “District”) was created, organized and established on May 14, 1985, by the Texas Commission on Environmental Quality pursuant to Chapter 54 of the Texas Water Code.

The reporting entity of the District encompasses those activities and functions over which the District’s elected officials exercise significant oversight or control. The District is governed by a five member Board of Directors (the “Board”) which has been elected by District residents or appointed by the Board. The District is not included in any other governmental “reporting entity” as defined by the Governmental Accounting Standards Board (“GASB”), since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. In addition, there are no component units included in the District’s reporting entity.

Government-wide and Fund Financial Statements

For purposes of GASB Statement No. 34, the District is considered a special purpose government. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the “Total Governmental Funds” column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the statement of net position and the statement of activities.

The government-wide financial statements report information on all of the activities of the District. The effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the expenses are offset by program revenues. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by the District. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Amounts reported as program revenues include charges to customers or applicants for goods, services, or privileges provided. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Major revenue sources considered susceptible to accrual include interest income. No accrual for property taxes to be collected within sixty days of year end has been made as such amounts are deemed immaterial; delinquent property taxes at year end are reported as deferred inflows of resources.

The District reports the following major governmental funds:

The General Fund includes financial resources used for general operations. It is a budgeted fund, and any unassigned fund balance is considered resources available for current operations.

The Debt Service Fund includes debt service taxes and other revenues collected to retire bond principal and to pay interest due.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Budgets and Budgetary Accounting

Formal budgetary integration is employed as a management control device for the General Fund. The budget is proposed by the District Manager for the fiscal year commencing the following October 1, and is adopted on the modified accrual basis, which is consistent with generally accepted accounting principles.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity

Investments - Temporary investments throughout the year consisted of investments in an external local government investment pool and a certificate of deposit. The external local government investment pool is recognized at amortized cost as permitted by GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The District is entitled to invest any and all of its funds in certificates of deposit, direct debt securities of the United States of America or the State of Texas, certain Federal agency securities and other types of municipal bonds, fully collateralized repurchase agreements, commercial paper and local government investment pools. The District's investment policies and types of investments are governed by Section 2256 of the Government Code ("Public Fund Investments Act"). The District accrues interest on temporary investments based on the terms and effective interest rates of the specific investments.

Prepaid Items - Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid assets in both the government-wide and fund financial statements. Prepaid assets are charged to expenditures when consumed.

Capital Assets - Capital assets, which include land, construction in progress, infrastructure (water and wastewater facilities purchased, constructed, or donated), park improvements, and other capital assets, are reported in the governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of at least \$5,000. Such assets are recorded at historical cost, if purchased, or estimated acquisition value at the date of donation, if donated. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are not capitalized. Capital assets (excluding land and construction in progress) are depreciated using the straight line method over the following estimated useful lives: infrastructure - fifty years, park improvements - ten years, and other capital assets - ten to fifteen years.

Long-Term Debt - In the government-wide financial statements, long-term debt is reported as a liability in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures in the period incurred.

Ad Valorem Property Taxes - Property taxes, penalties and interest are reported as revenue in the fiscal year in which they become available to finance expenditures of the District. Allowances for uncollectibles are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Fund Equity - The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. See Note 10 for additional information on those fund balance classifications.

Deferred Outflows and Inflows of Resources - The District complies with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the District's net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District's acquisition of net position applicable to a future reporting period.

The District complies with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

Fair Value Measurements - The District complies with GASB Statement No. 72, *Fair Value Measurement and Application*, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Fair value accounting requires characterization of the inputs used to measure fair value into a three-level fair value hierarchy as follows:

- Level 1 inputs are based on unadjusted quoted market prices for identical assets or liabilities in an active market the entity has the ability to access.
- Level 2 inputs are observable inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent from the entity.
- Level 3 inputs are unobservable inputs that reflect the entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available.

There are three general valuation techniques that may be used to measure fair value:

- Market approach - uses prices generated by market transactions involving identical or comparable assets or liabilities.
- Cost approach - uses the amount that currently would be required to replace the service capacity of an asset (replacement cost).
- Income approach - uses valuation techniques to convert future amounts to present amounts based on current market expectations.

Use of Estimates - The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Recently Issued Accounting Pronouncements

In June 2017, the GASB issued GASB Statement No. 87, *Leases*, effective for fiscal years beginning after June 15, 2021. The objective of GASB Statement No. 87 is to improve accounting and financial reporting for leases by governments by requiring recognition of certain lease assets and liabilities that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. GASB Statement No. 87 establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB Statement No. 87, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and deferred inflow of resources. Management is evaluating the effects that the full implementation of GASB Statement No. 87 will have on its financial statements for the year ended September 30, 2022.

2. Reconciliation of Government-Wide and Fund Financial Statements

Amounts reported for governmental activities in the statement of net position are different because:

Governmental funds total fund balance	\$ 1,519,108
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	9,115,168
Deferred tax revenue is not available to pay for current period expenditures and, therefore, is deferred in the funds.	4,611
The following liabilities are not due and payable in the current period and, therefore, are not reported in the funds:	
Bonds payable	(1,885,000)
Bond interest payable	<u>(8,510)</u>
Total net position	<u>\$ 8,745,377</u>

Amounts reported for governmental activities in the statement of activities are different because:

Deficit of revenues under expenditures	\$ (129,564)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense:	
Capital outlay	278,379
Depreciation expense	(372,347)
Contributed capital assets	398,560
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
Change in deferred tax revenue	1,709
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	
Repayment of bond principal	590,000
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	
Change in bond interest payable	<u>2,660</u>
Change in net position	<u>\$ 769,397</u>

3. Cash and Temporary Investments

The District's deposits are required to be secured in the manner provided by law for the security of the funds. At September 30, 2020, such deposits were entirely covered by Federal Deposit Insurance Corporation ("FDIC") insurance or secured by collateral pledged by the depository.

The Public Funds Investment Act authorizes the District to invest in funds under a written investment policy. The District's deposits and investments are invested pursuant to the investment policy, which is approved annually by the Board. The primary objectives of the District's investment strategy, in order of priority, are safety, liquidity, and yield.

The District is entitled to invest in obligations of the United States, the State of Texas, and certificates of deposit of state or national banks domiciled in Texas that are insured by the FDIC. The District's investment policy is in accordance with the Public Funds Investment Act. Authorized investments of the Public Funds Investment Act include obligations of, or guaranteed by, governmental entities, certificates of deposit, fully collateralized repurchase agreements, prime domestic bankers' acceptances, commercial paper with a stated maturity of 270 days or less from the date of its issuance, no-load money market mutual funds regulated by the United States Securities and Exchange Commission, guaranteed investment contracts, and eligible public funds investment pools. The District's management believes that it complied with the requirements of the Public Funds Investment Act and the District's investment policies.

Temporary investments held at September 30, 2020 consisted of the following:

Type	Fair Value	Weighted Average Maturity (Days)	Standard & Poor's Rating
Certificate of deposit	\$ 240,000	222	N/A
Public funds investment pool - TexPool	<u>1,323,590</u>	1	AAAm
Total	<u>\$ 1,563,590</u>		

At September 30, 2020, the District held investments in one external local governmental investment pool, Texas Local Governmental Investment Pool ("TexPool"). Although TexPool is not registered with the SEC as an investment company, it operates in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. These investments are reported by the District at amortized cost under GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

TexPool is overseen by the Texas State Comptroller of Public Accounts, who is the sole officer, director and shareholder of the Texas Treasury Safekeeping Trust Company which is authorized to operate TexPool. TexPool also has an advisory board to advise on TexPool's investment policy. This board is made up equally of participants and nonparticipants who do not have a business relationship with TexPool. Federated Investors manage daily operations of TexPool under a contract with the Comptroller and is the investment manager for the pool. TexPool's investment policy stipulates that it must invest in accordance with the Public Funds Investment Act.

In accordance with GASB Statement No. 79, the external local government investment pool does not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amounts. This pool does not impose any liquidity fees or redemption gates.

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized agencies are designed to give an indication of credit risk. At September 30, 2020, investments were included in a certificate of deposit and an external local governmental investment pool with ratings from Standard and Poor's in compliance with the District's investment policy.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. Information regarding investments in any one issuer that represents five percent or more of the District's total investments must be disclosed under GASB Statement No. 40, excluding investments issued or explicitly guaranteed by the U.S. government.

Interest Rate Risk - The District considers the holdings in the external local governmental investment pool to have a one day weighted average maturity due to the fact that the share position can usually be redeemed each day at the discretion of the shareholders, unless there has been a significant change in value. At September 30, 2020, the District's certificate of deposit had a weighted average maturity of 222 days.

4. Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as “due from other funds” or “due to other funds.” The composition of interfund balances as of September 30, 2020, is as follows:

Receivable Fund	Payable Fund	Amount
General	Debt Service	\$ 789

5. Capital Assets

Capital assets activity for the year ended September 30, 2020, was as follows:

	Balance September 30, 2019	Additions	Retirements and Transfers	Balance September 30, 2020
Capital assets not being depreciated:				
Land	\$ 12,500	398,560	-	411,060
Construction in progress	101,075	262,794	-	363,869
Total capital assets not being depreciated	113,575	661,354	-	774,929
Capital assets being depreciated:				
Water and wastewater facilities	12,807,082	-	-	12,807,082
Park improvements	1,783,303	15,585	-	1,798,888
Other capital assets	355,430	-	-	355,430
Total capital assets being depreciated	14,945,815	15,585	-	14,961,400
Less accumulated depreciation for:				
Water and wastewater facilities	(5,224,561)	(282,830)	-	(5,507,391)
Park improvements	(668,823)	(89,517)	-	(758,340)
Other capital assets	(355,430)	-	-	(355,430)
Total accumulated depreciation	(6,248,814)	(372,347)	-	(6,621,161)
Total capital assets being depreciated, net	8,697,001	(356,762)	-	8,340,239
Capital assets, net	\$ 8,810,576	304,592	-	9,115,168

6. Long-Term Debt

The following is a summary of changes in long-term debt for the year ended September 30, 2020:

	Balance September 30, 2019	Additions	Reductions	Balance September 30, 2020
Series 2005	\$ 375,000	-	(95,000)	280,000
Series 2012	2,100,000	-	(495,000)	1,605,000
Total	\$ 2,475,000	-	(590,000)	1,885,000

Bonds payable at September 30, 2020, is comprised of the following:

Series	Description	Matures Through	Interest Rate %	Balance September 30, 2020	Due Within One Year
2005	Unlimited Tax and Revenue Refunding Bonds	2023	2.65% - 4.60%	\$ 280,000	\$ 90,000
2012	Unlimited Tax Refunding Bonds	2023	0.80% - 2.39%	1,605,000	515,000
				<u>\$ 1,885,000</u>	<u>\$ 605,000</u>

Debt service requirements to maturity for the District's bonds are as follows:

Fiscal Year	Principal	Interest	Total
2021	605,000	42,903	647,903
2022	635,000	26,186	661,186
2023	645,000	8,813	653,813
Total	\$ 1,885,000	77,902	1,962,902

The bonds are payable from the proceeds of a continuing, direct, and ad valorem tax levied upon all property within the District subject to taxation without limitation as to rate or amount, and are further payable from and secured by a lien on, and pledge of, the net revenues to be received from the operation of the District's waterworks and sewer system. The bonds are obligations solely of the District and are not obligations of the City of Round Rock, Texas (the "City"); Williamson County, Texas; the State of Texas; or any other entity other than the District.

At September 30, 2020, there were \$1,835,000 of bonds authorized by voters of the District but unissued.

7. Property Taxes

The Texas Water Code authorizes the District to levy a tax each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located within its boundaries. Assessed values are established annually by the Williamson Central Appraisal District. District property tax revenues are recognized when levied to the extent that they are collected and become available to finance expenditures of the District in the current fiscal period. The balance is reported as deferred inflows of resources. Taxes receivable are due January 1 and are delinquent if received after January 31 and are subject to penalty and interest charges.

In September 2019, the District levied a tax rate of \$0.3600 per \$100 of assessed valuation to finance the operating expenditures and debt service requirements of the District. The maintenance tax rate and the debt service tax rate were \$0.2100 and \$0.1500, respectively. The total 2019 tax levy was \$1,432,737 based on a taxable valuation of \$392,483,005.

8. Commitments and Contingent Liabilities

Under a water and wastewater rate settlement agreement dated September 22, 1991 with the City, the City agreed to set and charge the District water and wastewater rates at the same rates as the City charges its retail customers inside the city limits of Round Rock. The City agreed to collect water and wastewater revenue from the customers of the District, and shall bear all responsibility to operate, manage, maintain and repair, at the City's expense, all of the District's facilities. The City also agreed not to charge the District any other fees that it does not charge its customers in the normal course of operation.

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a pandemic, which continues to spread throughout the United States. While the disruption is expected to be temporary, there is uncertainty around the severity and duration. Due to the nature of the District's services, the pandemic may negatively impact the District's business, results of operations, and financial position; however, the related financial impact cannot be reasonably estimated at this time. The District is actively managing its operations to maintain its cash flow and management believes that the District has adequate liquidity.

9. Risk Management

The District's risk management program includes coverage through third party insurance providers for director and officer liability, public official position liability and general liability. Losses in excess of the various deductible levels are covered through traditional indemnity coverage. No claims were filed during the previous two years.

10. Fund Balances

The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Those fund balance classifications are described below.

Nonspendable - Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

Restricted - Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

Committed - Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board.

Assigned - For the General Fund, the Board may appropriate amounts that are to be used for a specific purpose. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed.

Unassigned - Amounts that are available for any purpose; these amounts can be reported only in the District's General Fund.

The detail of the fund balances is included in the Governmental Funds Balance Sheet on page 10. Fund balance of the District may be committed for a specific purpose by formal action of the Board, the District's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board has the authority to assign fund balance for a specific purpose.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and lastly, unassigned fund balance.
