Boil Water Notice for Willow Creek Farms MUD
<December 23, 2022>

Due to a drop in water pressure, the Texas Commission on Environmental Quality has required the Willow Creek Farms MUD to notify all customers to boil their water prior to consumption (e.g., washing hands/face, brushing teeth, drinking, etc). Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria, and all customers should follow these directions).

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and ice making should be boiled and cooled prior to use for drinking water or human consumption purposes. The water should be brought to a vigorous rolling boil and then boiled for two minutes.

In lieu of boiling, individuals may purchase bottled water or obtain water from some other suitable source for drinking water or human consumption purposes.

When it is no longer necessary to boil the water, Willow Creek Farms MUD will notify customers that the water is safe for drinking water or human consumption purposes.

Once the boil water notice is no longer in effect, Willow Creek Farms MUD will issue a notice to customers that rescinds the boil water notice in a manner similar to this notice.
