

1. Water System
 - a. When meter not removed **\$75**
 - b. After-hours reconnect fee **\$75**
(when reconnection is made after 5:00 p.m. on a weekday or when request is made after 2:00 p.m.)
 - c. Weekend and holiday reconnect fee **\$150**
(when reconnection is made on a holiday or weekend)
 - d. When meter removed **\$100**
2. Wastewater System **Two times the cost to the District.**

H. Additional Charges. Any non-routine charges incurred by the District in connection with any tap and/or inspection will be the responsibility of the applicant for such connection and will be payable to the District upon demand.

IV. Water and Wastewater Rates.

A. Monthly Water Rates.

1. Base Customer Charge: **\$37.10** per FUE
2. Water Commodity Charge:
 - a. Standard Service (per 1,000 gallons) (includes Lost Pines Groundwater Conservation District production fee of \$0.12)

<u>Meter Size</u>	<u>1-10,000 Gallons</u>	<u>10,001-20,000 Gallons</u>	<u>+20,001 Gallons</u>
1" & under	\$6.10	\$7.25	\$8.50
 - b. Large Volume Service/Fire hydrant meters

<u>Meter Size</u>	<u>Per 1,000 Gallons</u>
Over 1"	\$7.25

B. Monthly Wastewater Rates.

1. Base Customer Charge:
(includes 2,000 gallons of usage)
 - a. In-District Customers: **\$23.00** per FUE
 - b. Out-of-District Customers: **\$3,063.35**
2. Wastewater Commodity Charge:

(gallage charge for all usage over 2,000/month)

- a. In-District Customers: **\$3.35** per 1,000 gallons
- b. Out-of-District Customers: **\$4.20** per 1,000 gallons

3. Additional Charges and Fees for Out-of-District Customers.

a. Out-of-District Connection Charges. Prior to the completion of construction of any wastewater line or lines proposed to connect any property to out-of-district wastewater service, the owner of the property must pay its pro rata share of the capital costs for wastewater service to that property, including costs associated with any trunk lines, lift stations, force mains, and joint or shared facilities and any applicable rates, fees, and charges arising under the Wastewater Contract, as determined by the District's engineer in accordance with the conversion criteria set forth on Exhibit B, as applicable.

b. Pump and Haul Pass-Through Cost: Each out-of-District wastewater customer must also pay its pro rata share of the actual costs for pump and haul wastewater service incurred by the District, if any.

C. Calculation of Wastewater Charges.

1. Bills for residential wastewater service will be computed: (a) on the basis of the average amount of water used by the customer during the winter season based upon the average of the monthly readings of the customer's water meter for the preceding December, January, February, and March (excluding the month with the highest usage) unless another winter-averaging period is established by the Board (the "winter-averaging period"); or (b) on the basis of the customer's current monthly water bill, whichever is less; however, any customer who did not have an approved wastewater connection during the prior winter averaging period will not be entitled to use the winter-averaging method and will be billed on the basis of the lesser of: (i) the customer's current monthly water usage; or (ii) 8,000 gallons of water usage per FUE per month.

2. Bills for non-residential wastewater service, including wastewater service to an apartment complex, will be computed on the basis of the lesser of: (a) the average of the monthly readings of the customer's water meter during the winter-averaging period, or (b) the customer's current monthly water bill; however, if a nonresidential customer did not have an approved wastewater connection during the prior winter averaging period, the customer's monthly wastewater charges will, at the District's option, be calculated: (i) based upon the customer's current monthly water usage; or (ii) by measuring actual sewage volume, on a basis acceptable to the District, at the expense of the customer.

3. No wastewater charges will be assessed for water utilized through a dedicated irrigation meter or temporary water connection approved by the District.

D. Regulatory Assessments. A regulatory assessment of 1/2% of retail water and sewer charges will be added to each customer's monthly billing. These assessments are remitted by the District to the Commission and used by the Commission in performing its regulatory duties and in providing technical assistance and training to utilities.
