

# Travis County M.U.D.'s 3 – 9

## Stage 2 Watering Restrictions

Because your District's wholesale water supplier, the L.C.R.A. has initiated **Stage 2** Water Restrictions, the Travis County M.U.D.'s 3 – 9 are required to do the same.

### **Mandatory Restrictions apply as follow:**

- Irrigation of landscaped areas will be restricted to once-weekly water in accordance with the following schedule:

Addresses ending:

Monday	1, 3
Tuesday	2, 4
Wednesday	5, 7
Thursday	6, 8
Friday	9, 0
Saturday	All commercial & HOAs

**Please adjust irrigation schedules to follow the “one day per week” as per the requirements above.**

### Demand Management Measures

Hours will be limited to midnight to 10 a.m. & 7 p.m. to midnight on the Designated Outdoor Watering Day. Such prohibitions do not apply to irrigation of landscaped areas undertaken by a hand-held hose or faucet-filled bucket or water can of five gallons or less.

b. New landscapes may only be installed if they do not require a variance to the mandatory watering schedule. No variances will be approved.

c. Use of water to wash any motor vehicle, motorbike, boat, trailer, airplane, or other vehicle is prohibited. A vehicle can be washed at any time at a commercial car wash facility or commercial service station. Further, this activity is exempt from these regulations if the health, safety, and welfare of the public are served by washing the vehicle, such as a truck used to collect garbage or used to transport food and perishables.

d. Filling of all new and existing swimming pools, hot tubs, wading pools, is prohibited, unless application for variance is approved on a case by case basis. Replenishing to maintenance level is permitted. Draining is

permitted only onto pervious surfaces or onto a surface where water will be transmitted directly to a pervious surface, and only if:

- (i) Draining excess water from pool due to rain in order to lower water to maintenance level;
- (ii) Repairing, maintaining or replacing pool components that have become hazardous; or
- (iii) Repair of a pool leak.

Refilling of public/community swimming pools permitted only if pool has been drained for repairs, maintenance, or replacement as outlined in items above.

e. Operation of outside water features, such as, but not limited to, fountains or outdoor misting systems, is prohibited, except where such features are designed and consistently maintained to sustain aquatic life or maintain water quality.

f. Ponds used for aesthetic, amenity, and/or storm water purposes may maintain water levels only necessary to preserve the integrity of the liner and operating system.

g. Events involving the use of water such as: car washes, festivals; parties; water slides; and other activities involving the use of water are prohibited.

h. Watering of recreational areas, including parks and athletic fields, is prohibited except with a hand-held hose.
