An approved wastewater tap inspection starts the billing process for the account. Applicant will receive a bill until we receive a copy of the customer service inspection certificate from the plumber or builder. Following receipt, we can then transfer service to a new customer.

I, the Applicant agree to comply with the following:

All plumbing inspections will be performed by ATS, the approved plumbing inspector for the District (It is the Builder's responsibility to call before starting construction. Please contact 512-328-6995 to schedule private plumbing inspections.

The sewer wye connection must be visible for complete inspection by Crossroads. I will notify Crossroads Utility Services in writing 24 hours in advance to request the tap inspection by email to builderservices@crossroadsus.com
